**Ysgol Gymraeg Bro Ogwr**

Years 5 and 6 were visited by Charlie from the Ospreys. Ospreys in the Community deliver inclusive sessions to mixed age groups and abilities across the region, such as wheelchair & visually impaired rugby, primary school & club engagement, touch rugby, and our popular rugby camps.

Year 5 visited the community allotment where they sampled fresh produce and learnt many facts and tips on growing your own vegetables. The children also enjoyed the walk around Brackla, where they compared how Brackla looks today compared to a 100 years ago.

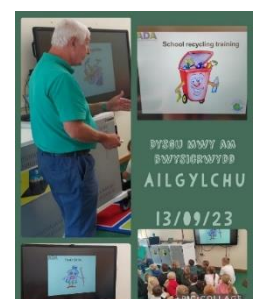

The children in Year 3 & 4 learnt about the importance of recycling.

The fun workshop, teaches pupils why recycling is important for the environment and to reduce climate change.

Delivered by ADA Recycling Training and aimed at primary school aged pupils, it follows a set lesson plan and reinforces the work being done as part of the Eco Schools programme.

As well as being educational, there is lots of classroom interaction, and activities such as quizzes.

The children looked at what things they can recycle in school, what they are made of and how they can be recycled into new products.

Congratulation's boys! First game of the season for the boys selected to play for Bridgend District Schools under 11s

Year 3&4 travelled at top speed through Welsh history with BowTie productions in an entertaining show that had the children and staff laughing.

Ysgol Gyfun Llangynwyd organised interactive Spanish lessons for Year 6 for the school year. Lovely to see friends from one of cluster schools. Thank you Maestra David for providing fabulous lessons!

Thank you to Mrs Haines for teaching years 2,3 & 4 about the local farmers and the process of pasteurising milk. The children tasted milk/milkshake and everyone agreed it tasted delicious.

Thank you to everyone who supported our Macmillan coffee morning. Many families joined us for refreshments and cake, due to your generosity we managed to raise over £600! Also a big thank you to ffrindiau Bro Ogwr for supplying a cake for each child.

Thank you to Mr Coleman for our assembly today, with the message - the importance of asking for help when needed.

Two year 5 teams competed in the Urdd rugby tournament. It was a close game when the 2 Bro Ogwr teams played against each other, which resulted in a draw. Well done to everyone who competed.

Year 6 visited YGG Llangynwyd for the first transition day of the year. The children participated in Welsh, English and Numeracy classes. Parents were then welcome to visit the school and to attend an open evening.

The first cross country race was held for years 3-6 in Bryntirion Comprehensive School. Well done to everyone who participated and good luck for the rest of the season.

Welsh Water led an assembly for years 3-6. The award winning education team visited the school to give an assembly where they taught the children about all things to do with water! How they collect it, treat it, use it and clean it.

The interactive workshops were led by seconded teachers who educate children through the most creative lessons and equip children to become water ambassadors, with an understand about climate change, community and Welsh Water's business messages.

Year 6 visited a one-day coding workshop that covered a variety of different areas and is tailored to the abilities of the children. The workshop was developed and led by Steven Lewis, a fully qualified coding instructor. The children were taught STEM skills and the programme uses games such as Minecraft to introduce the pupils to various programming languages including Scratch and Python, which they would not normally encounter as part of the school curriculum.
